

**NCCTM INSTRUCTIONAL LEADER OF MATHEMATICS
TEACHING AWARD**

Nomination Form

The North Carolina Council of Teachers of Mathematics accepts nominations for the Instructional Leader of Mathematics Teaching Award each year. The purpose of this award is to recognize and reward an individual at the district or school level who has made an outstanding and noteworthy contribution to mathematics education and NCCTM by working directly with classroom teachers to improve student learning of mathematics. This individual may support classroom teachers through coaching, professional development, demonstration lessons, and/or development of curriculum materials and resources. Any NCCTM member may submit nominations using the form below. If additional space is needed, a letter may be attached to the form. Nominations will be retained in the active file for three years.

Name of Nominee: _____

Present Position and Location: _____

Outstanding contributions to mathematics education and NCCTM:

Describe the ways this individual supports classroom teachers and works to improve student learning of mathematics:

Additional information that would be of value to the selection committee:
